What You Find on This Page
This page is organized into several sections that explore how the hospital plans to achieve seismic compliance or address its compliance. Each section provides a different layer of detail. Top right-hand sections in bolding specify specific information.

Seismic Compliance Plan for 10654 Doctors Hospital Of Riverside
Status: Not Approved

"Not Approved" indicates that the extended Compliance Plan has been reviewed and is not approved because, although the facility is reporting it will be compliant with the January 1, 2020 deadline, the Compliance Plan indicates that the facility will be non-compliant with the March 1, 2020 deadline and/or March 1, 2028 deadline. The compliance plan indicates that AHMC is currently evaluating the financial budget and the ability to fund seismic compliance by the 2020 deadline. According to the AHCA database, there is no required evaluation or construction project for the building to achieve the SPC-407 and/or SPC-402B retrofit/revisions required for 2020 compliance. Please provide a path to compliance to reach 2020 deadline. Due to the ongoing uncertainty, the extended Compliance Plan shall be submitted to address the delay. While some commitments, the Office is unable to include any commitments with the facility and to provide support in resolving the outstanding issues.
