Status: Not Approved

¹ "Not Approved" indicates that the submitted Compliance Plan has been reviewed and is not approved. This facility reports that it will meet all applicable NRC deadlines and achieve seismic compliance by the January 1, 2030, deadline. However, the Office has determined that the Compliance Plan has insufficient details that must be addressed before approval can be granted. See the following comments. An amended Compliance Plan will be submitted to address and resolve these comments; the Office is available to discuss any comments with the facility and to provide support in resolving the outstanding issues.

Milestones are represented by circles on the timeline—however, a circle is used for additional details. All milestones and dates are reported by the hospital. IHS/AT has verified that a milestone was met. It is marked as met.
