

What You'll Find on This Page
This page is organized into several sections that explain how the hospital plans to achieve seismic compliance across its campus. Each section presents a different level of detail, from high-level timelines to building-specific

Regulatory Deadlines per 2028 CAC Chapter 8, Article 1, Section 1.5.2:
March 1, 2028: Deadline to submit construction documents for NPC 6102, NPC 9, Demolition, and Removal of Acute Care Service projects
March 1, 2028: Deadline for permits to be obtained for NPC 6102, NPC 9, Demolition, and Removal of Acute Care Service projects
January 1, 2030: Deadline for all seismic compliance projects to be completed

Status: Not Approved

"Not Approved" indicates that the submitted Compliance Plan has been reviewed and is not approved because, although the facility is reporting that it will be compliant with the January 1, 2020 deadline, the Compliance Plan indicates that the facility will be non-compliant with the March 1, 2026 deadline. According to the HCAI database, there is no recorded evaluation or construction project for BLD-01040 to achieve the SPC-4D reclassifications required for 2030 compliance. The plan does not include a sufficiently detailed path to resolve all areas of non-compliance. Please provide a path for compliance to reach 2030 deadlines. See the following comments. An amended Compliance Plan shall be submitted to address and resolve these comments, the Office is available to discuss any concerns with the facility and to provide support in resolving the outstanding issues.

Summary Schedule - Click to Hide

Summary Schedule

This section provides a visual timeline for each building on the hospital's campus, showing the reported plan for achieving seismic compliance. Milestones are represented by circles on the timeline—hover over a circle to see additional details. All milestones and dates are reported by the hospital. IFHCN has verified that a milestone was met, it is marked as met.
