

This page is organized into several sections that explain how the hospital plans to achieve seismic compliance across its campus. Each section presents a different level of detail, from high-level timelines to building-specific information.

Regulatory Deadlines per 2020 CAC Chapter 6, Article 1, Section 1.2.1:

- March 1, 2020:** Deadline to submit construction documents for NPC 6102, NPC 3, Demolition, and Removal of Acute Care Service projects
- March 1, 2020:** Deadline for permits to be obtained NPC 6102, NPC 3, Demolition, and Removal of Acute Care Service projects
- January 1, 2020:** Deadline for all seismic compliance projects to be completed

Status: Not Approve

"Not Approved" indicates that the submitted Compliance Plan has been reviewed and is not approved because, although the facility is reporting that it will be compliant with the January 1, 2030 deadline, the Compliance Plan indicates that the facility will be non-compliant with the March 1, 2025 deadline and March 1, 2028 deadline. The plan does not include a sufficiently detailed schedule to resolve all areas of non-compliance with the HCAI deadline. There is no reason to believe that the facility will be able to complete the construction to achieve the SPC-4D and NPPC-4KD/5 redesignations required for 2030 compliance. In addition, there is no NPPC-4KD/5 evaluation and construction plan in HCAI data for BCL00947. Please submit evaluation and retrofit projects and provide a path for compliance to reach 2030 deadline. See the following comments. An amended Compliance Plan should be submitted to address and resolve these comments. The Office is available to discuss any comments with the facility and to provide support in resolving the outstanding issues.
