January 1, 2030: Deadline for all seismic compliance projects to be completed

This page is organized into several sections that explain how the hospital plans to achieve seismic compliance across its campus. Each section presents a different level of detail, from high-level timelines to building-specific

¹⁰ "Approved with Non-Compliance Noted" indicates that the submitted Compliance Plan has been reviewed and approved, but that the facility is reporting that it will be non-compliant with one or both of the NRC regulatory deadlines. While the overall schedule is deemed reasonable and the facility is reporting they will be essentially compliant by January 1, 2020, this compliance plan schedule indicates that the facility will not meet the March 1, 2020 deadline. The Approved with Non-Compliance Noted status serves as a notice that facility's plan is not entirely compliant with 2025 California Administrative Code requirements.
