

This page is organized into several sections that explain how the hospital plans to achieve seismic compliance across its campus. Each section presents a different level of detail, from high-level timelines to building-specific

Status: Approved - Noncompliance Noted

Approved with Non-Compliance Noted indicates that the submitted Compliance Plan has been reviewed and approved, but that the facility is reporting that it will be non-compliant with one or both of the NRC regulatory deadlines. While the overall schedule is deemed reasonable and the facility is reporting they will be essentially compliant by January 1, 2020, this compliance plan schedule indicates that the facility will not meet the March 1, 2020 deadline. The Approved with Non-Compliance Noted status serves as a notice that facility's plan is not entirely compliant with 2025 California Administrative Code requirements.

Summary Schedule - Click to Hide

This section provides a visual timeline for each building on the hospital's campus, showing the reported plan for achieving seismic compliance. Milestones are represented by circles on the timeline—hover over a circle to see additional details. All milestones and dates are reported by the

hospital. IFNCAI has verified that a milestone was met, it is marked as met.

Building Milestone Description Table - Click to Hide

This table shows detailed, building-level structure information reported by the hospitals. Each building may have up to ten milestones that describe the steps the hospital plans to take—and the timelines for taking them—to achieve seismic compliance. Any HCRN comments on the reported milestones are included in the table.
